Practice: Metric Conversions (nursing dosag

Name: _____ Date: _____

Convert. Write the number only.

1. Convert 1 g to mg. = _____

2. Convert 3 L to mL. = _____

3. Convert 5 g to mg. = _____

4. Convert 1.5 L to mL. = _____

5. Convert 0.6 g to mg. = _____

Answer key (for the adult)

Pattern: divides by 1000 for all metric conversions.
The learner divides by 1000 every time, even when converting to a smaller unit that needs multiplying. This produces the answers in problems 1, 2, 4, and 6 exactly. Problems 3 and 5 are right only because those small-to-large conversions do need division by 1000.

---

1. Convert 1 g to mg.

Answer: 1000

If you see 0.001, that is the habit again.

checked by an independent solve

2. Convert 3 L to mL.

Answer: 3000

If you see 0.003, that is the habit again.

checked by an independent solve

3. Convert 5 g to mg.

Answer: 5000

If you see 0.005, that is the habit again.

checked by an independent solve

4. Convert 1.5 L to mL.

Answer: 1500

If you see 0.0015, that is the habit again.

checked by an independent solve

5. Convert 0.6 g to mg.

Answer: 600

If you see 0.0006, that is the habit again.

checked by an independent solve

AI can make mistakes. Every answer above was solved twice by separate model calls; anything marked NOT verified needs your eye.
